

GLOBAL SUSTAINABLE BUSINESS MANAGEMENT

Full-time Master Programme 2024-2025

Do you want to be part of the transformation? This 18-month master programme will give you the knowledge and competence to support future sustainable business practice on a global scale.

Designed in line with United Nations' Sustainable Development Goals, we have developed a curriculum that deals with real sustainability challenges in business.

During the programme, you will work on real-life cases from businesses who wish to transform, gaining a critical perspective on management theory, business practice, and responsible leadership. Working with business analytics, you will learn to interpret sustainability metrics used to make decisions and to achieve sustainable and ethical results.

This programme is based at the Business Campus in Amsterdam Southeast. This is a joint master's programme between Northumbria University and the Amsterdam University of Applied Sciences. Upon graduation you will receive a joint Master of Science from both universities.

"If you understand that you are the generation that is an intermediate to lead the transition from the past to the future, then you should definitely choose this master programme."

- Edward, MGSBM Student

Admission requirements

Prospective students should have a Dutch undergraduate (WO or HBO Bachelor) degree or a relevant 2:2 honours UK degree, or an equivalent degree in the field of Science, Technology, Engineering or Mathematics (STEM) or business or economics. If your degree is outside these disciplines, you will be required to participate in an admissions interview. This programme is in English. Applicants need to have an IELTS score of 6.5 for entry to the programme (with no component below 5.5), or an equivalent as recognised by AUAS.

Study Load

The Master's programme Global Sustainable Business Management is full-time and 18-months (90 EC credits). You will spend on average 40 hours per week, including seminars, lectures, self-study and project work.

Tuition fees

The tuition fees for the 18-month programme are €13,883*. Have you completed a bachelor's degree from the Amsterdam University of Applied Sciences or Northumbria University, then you are eligible for a 20% discount on the tuition fee. This brings down your fees to €11,106 for the entire programme. *Please note: fees are subject to change.
